

## Warren E. Foster, '43 Elected To Succeed Arend As IFC Chairman

Warren E. Foster, '43, of the Phi Beta Epsilon fraternity, was elected chairman of the Inter Fraternity Conference for next year at a dinner meeting held last night in Faculty Lounge. John D. Helbig, '43, of Kappa Sigma was selected as secretary and William H. Brett, III, '43, of Beta Theta Pi, as treasurer of the organization.

An early election of the Dance Committee chairman was held this year, because of the speed-up. William O. Boschen, '44, a representative of Theta Chi, was awarded this office.

Foster, the new chairman, has been active in I.F.C., having been the Dance Committee chairman the past year. He is also the chairman of the Student-Faculty Committee, secretary of the Institute Committee, and a member of the editorial board of The Tech. For his work as personnel manager of The Tech, Foster received membership in the Gridiron, honorary publications society. He also belongs to the Q Club and the Beaver Club.

In an interview with The Tech last evening, the new chairman announced that he must retire as chairman of the Student-Faculty Committee, because of his new duties. The meeting was conducted by John S. Arend, '42, retiring chairman.

## Students To Attend Faith Conference Christians And Jews Will Convene April 23

Three students from the Institute have been invited to attend the annual dinner of the Massachusetts Committee of the Conference of Christians and Jews to be held Thursday, April 23, in the Boston Chamber of Commerce building.

The Conference is composed of members of the Protestant, Catholic and Jewish faiths and was organized for the purpose of "maintaining justice, amity, understanding and cooperation among Protestants, Catholics and Jews." Dr. Karl T. Compton is a member of the Executive Committee of this Conference.

The students selected to attend this year's dinner are E. Charlton Crocker, '43; Clinton C. Kemp, '43; and Stanley B. Roboff, '43. Students from Harvard, Boston College, Boston University, Tufts, Radcliffe, Simmons, and Wellesley are also to be present.

## Five Institute Students Elected To Delta Omega

As a result of high scholastic achievement and professional promise in their work, five students of Technology have been elected to Delta Omega, national honorary public health fraternity. Those elected were, Alice M. Heath, Jeanette Herman, Dr. Willard D. Nalchajian, William Roemmich and Julia C. Sullivan, all graduate students.

Delta Omega fraternity was established at Johns Hopkins School of Public Health in 1924, and now has chapters at Technology, Harvard, Yale, Michigan, University of California, and the College of Physicians and Surgeons in New York. Its aim is to recognize scholastic attainment and professional promise in public health and to encourage research and scholarship among those who propose to pursue a career in public health.

## T.C.A. To Remain Open During Spring Recess

The Technology Christian Association will remain open and operating during the spring recess, it was announced last night by Clinton C. Kemp, '43, president of the organization.

Milton R. Daniels, Jr., '45, director of the Tech Cabin, also announced that three groups from the Institute will be taking advantage of the facilities of the cabin over the vacation. These groups are: Le Cercle Francais, which is to use the cabin from noon Saturday until 3:00 P.M. Sunday; the Alpha Club, from 8:00 P.M. Sunday until 9:00 A.M. Wednesday; and the Ice-Picker's Club, a group of graduate students, which is to have the use of the cabin from 10:00 A.M. Wednesday until 7:00 P.M. Wednesday evening.

## Seniors Ready For Final Week

### Program Of Events Finally Completed

In a last minute release by John J. Quinn, '42, of the Senior Week Committee, the final schedule of the Senior Week program has been announced. As a result of a poll conducted two weeks ago, the Com-

## Tech Frosh Enters Oratory Finals

Achieving a place among the six finalists this week, James G. Ulmer, Jr., '45, Technology Debating Society representative of the northeastern regional contest, has been given an opportunity to compete for the national championship in the National Extempore-Discussion Contest sponsored by the Office of Coordinator of Inter-American affairs. The northeastern region, which, for the contest, extends from Maine to Chicago, contains some of the largest schools in the country. Ulmer was chosen from among the many semi-finalists orating at Syracuse, N. Y.

Endorsed by President Roosevelt, this national contest is an attempt to promote inter-American friendship and co-operation, and to stimulate a nationwide study of inter-American affairs. The objectives are also to inform the general public concerning relations in this area, to formulate solutions for existing problems, and to implement the Good Neighbor Policy.

## Cornell University Crews To Compete In Rowe Regatta This Year, For The First Time

### Assemblies Ball Will Take Place Tonight At 10

#### Bert Edwards To Play; Royal Purple Motif To Be Color Scheme

This evening at 10:00 P.M. the doors of Morris Hall are to be opened to the members of the Walker Memorial staff, to their guests, and to alumni of the student staff when the Eighth Annual Walker Assemblies Ball begins.

Dancing to the music of Bert Edwards and his orchestra will continue from 10:00 P.M. until 3:00 A.M. Saturday morning. The color motif is to be the traditional royal purple, and the lights and decorations will follow this theme. The Assemblies Ball Committee has gone through a great deal of work to make this affair as large a success as its predecessors have been. Otto J. Loven, '42, chairman of the Committee said last night.

As was disclosed in Glenn Miller's Serenade to Technology last Friday evening, the ball is financed by the pooled tips which the workers in Walker received during the past

(Continued on Page 4)

## Dial Telephones Replace Manuals

### Dr. Compton Inaugurated System Last Saturday

Technology's telephone system, which, since 1916, has been manually operated, was inaugurated as a dial system on Saturday afternoon, April 11, when Dr. Karl T. Compton dialed a call to Professor Edward L. Moreland, Dean of Engineering.

The work on the new set-up was begun last summer and involved construction of a switchboard comparable in size to installations which serve large communities. The change was necessitated by the fact that in March of last year over 24,000 calls went over the switchboard as compared to only 13,000 in March 1936. Whereas in the same month 27,000 calls were made on the main switchboard alone. The Institute's operators will now be used only for outgoing toll calls, incoming calls, and inquiries for information.

Speakers at the ceremony which marked the change from manual to dial operation included President Compton, John J. Robinson, President of the New England Telephone and Telegraph Company, Professor Carlton E. Tucker of the depart-

(Continued on Page 4)

## William N. Holway, '43 Elected Head Of ASCE

William N. Holway, '43, was elected president of the Technology student chapter of the American Society of Civil Engineers it was announced last night. Other officers are Virgilio Barco, '43, vice-president; Victor C. Darnell, '43, secretary; John E. Gaynton, '43, treasurer; Alfred Picardi, '44, and John Burdakin, '44, assistant secretary and assistant treasurer respectively.

The new board has announced that it is planning a very active program for the summer term as well as next fall.

## Big Red To Compete Against Technology, Harvard, Syracuse And Boston University On Charles River Saturday, April 25

Cornell University will row for the first time in the Rowe Regatta to be held on the Charles on April 25, it was announced today by the M.I.T.A.A.

The sixth rowing of this regatta, named in honor of the late Allan Winter Rowe, a famous sportsman and secretary of Tech's Athletic Council, will find Cornell, Harvard, Syracuse, Boston University, and

### Technique To Be On Sale Next Friday In Main Lobby

Because of the great demand for books, Technique will again be on sale next Friday, April 24, from 9:00 A.M. to 5:00 P.M. in the Lobby of Building 10, according to Robert C. Meissner, '43, new general manager of Technology's yearbook.

It is requested that all students wishing copies of this year's Technique obtain their book at this time if they have not already done so.

## Yale University In Dual Debate With Tech Varsity

### First Match With Yale In Walker; Will Discuss Union With England

In a dual debate next Saturday wherein each school will send one of their two teams into opponent territory, Yale University and the Institute's varsity debating pairs will contest the question, "Resolved, that the United States enter into a permanent union with Great Britain." Each of Technology's teams will take the negative.

The debate at Technology, which is the first one to be held against the Yale varsity, will take place Saturday at 7:00 P.M. in Litchfield Lounge of Walker, it was announced last night by George M. Musgrave, '43, president of the Debating Society.

Raymond M. Redheffer, '43, and John W. Colton, '45, will contest the Yale team visiting Technology, while Harold A. Steiner, '45, and Arthur F. Dershowitz, '44, will visit New Haven to contest the team at Yale. Dershowitz, publicity director for the Debating Society, announced that both Technology teams have a record of 800 to uphold, which is considerably higher than last year's record. As is the custom for such debates, lodging and entertainment will be provided for the visiting teams.

### Next Issue Of The Tech After '42 Finishes Exams

The Tech would like to wish the Seniors a fond farewell. They have had a hard eleven week term, and the Institute has taken pity on them by giving the rest of the school a "spring recess", so that all would be peace and quiet during the final exams of the next few days. Therefore The Tech, not wishing to interrupt the deep quiet shall not publish next Tuesday.

Technology matching strokes to gain possession of the coveted Rowe Trophy.

This trophy is awarded by a point system to the college making the best score in the varsity, junior varsity, and 150 lb. varsity crew races. The points are awarded in the following manner: the winning varsity receives 10 points; junior varsity, 8; 150 lb. varsity, 6; second varsity crew receives 6; second junior varsity, 5; second 150 lb. varsity, 4; the third varsity crew will be awarded 3 points, J. V., 2, and 150 lb., 1.

Cornell and Syracuse are entering a varsity and junior varsity crew, and there is a possibility that Cornell freshmen will also row. Boston University will compete in the varsity and freshmen heavy races, while both Harvard and Tech will row in all four races.

The first race is scheduled to start at 4:45 P.M., and the remain-

(Continued on Page 4)

## Three Lucky Frosh Win Free Options

### Nos. 354, 212, And 485 Picked By Judy Darling

Frosh holders of option numbers 354, 212, and 485 are three lucky prom-goers. Miss Judy Darling, vocalist with Roly Roger's orchestra, drew the numbers at noon in the lobby of Building 10. The holders of these options are entitled to free redemptions to the prom and can obtain them, from the man from whom the options were bought as soon as the tickets go on sale.

Options may still be bought from members of the freshman council for \$2.00, and will be redeemed after April 29 for an additional \$1.30, including federal tax. Roly Roger's orchestra, which played for the Saturday night dance on Junior Prom weekend, is to play for this dance at the Hotel Kenmore on Friday night May 8th.

## New Officers Of A.I.Ch.E. Elected Wednesday Night

Elected to head the Technology chapter of the American Institute of Chemical Engineers at its annual banquet held last Wednesday night in the Hotel Victoria, Robert P. Richmond, '43, assumed the presidential responsibilities of the society for the coming year. John E. Harsch, '43, was chosen vice-president, with Robert M. Isaacs, '44, as the new secretary of the Society and Thomas F. Dolan, III, '44, as its new treasurer.

Professor Herman P. Meissner announced that Clinton C. Kemp, '43, is the winner of the A.I.Ch.E. award, given for the best scholastic rating in chemistry.

Discussing the human relations in industry, the speaker for the evening was Professor Clark S. Robinson, of the department of Chemical Engineering.

## AN END AND A BEGINNING

Tomorrow marks the end of the trail for the Class of 1942, a trail that was suddenly shortened in its last lap when Institute officials deemed it advisable to accelerate the final term of the Seniors' education so as to provide six hundred engineers for the nation's war effort at an early date.

Realizing that they were in a position to serve their country in a field which was seriously undermanned, the Seniors accepted the speed-up program in a spirit which demonstrated clearly their patriotic feelings. On their graduation day they can look back on a college career disrupted by war but nevertheless on a job well done.

At the same time the new alumni must look forward to the task which faces them and their nation, the task of outfitting for total war an army and navy that will be capable of protecting the liberties of democracy against the treachery of the menacing totalitarian hordes. That task is one which must be attended to immediately by industry and science, the fields which the majority of the Class of 1942 will enter. The importance and imminence of the problem has been stressed by Donald Nelson, chairman of the WPB, who has stated that America's battle will be won or lost by the degree to which she succeeds in mobilizing her industries for war production in 1942. Eight months remain in 1942, eight months in which Technology's graduating Seniors will be able to assist the United States in the most essential capacity possible at a time when they will be of the greatest use.

## A CEREBRAL EXERCISE

The world is going through a mighty upheaval. On all sides, we of the student body are urged to consider long and wisely the capacity in which we sincerely believe we can be of the most effective use to our country. We have heard lots of "Whether 'tis nobler in the mind to serve here or to serve there," etc., and perhaps we have repeated some of it, in good faith.

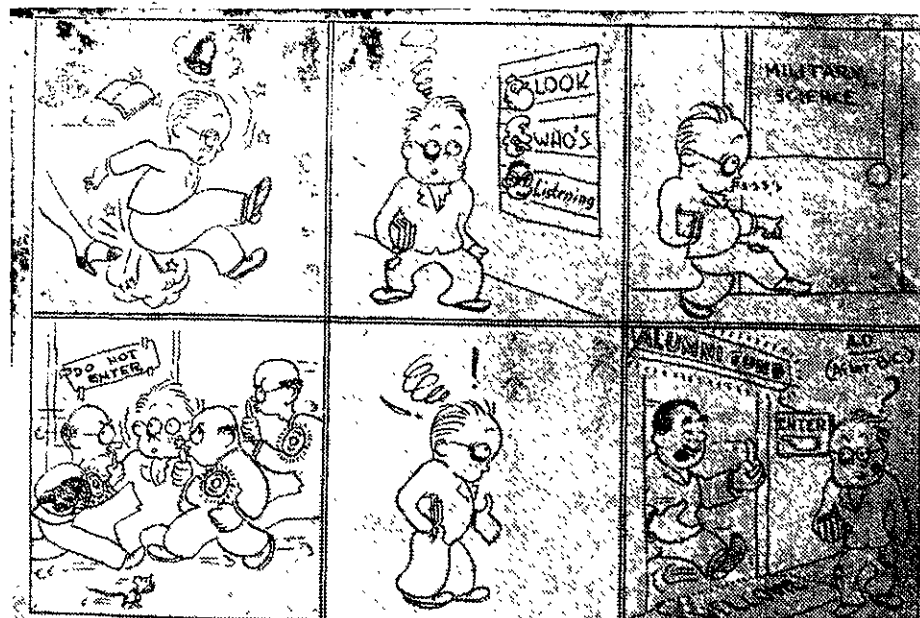

But the older generation is not growing younger. Our governors of today are not immortal although some would wish that they were. The time will come in the not too distant future when we, the youth, the lifeblood of America, will be called upon to LEAD, not to serve. We will have to assume powers. We cannot wait until they are delegated to us by doddering age. Democracy is a living, growing force whose essence is vitality and whose strength is constantly developing.

That sounds good, doesn't it, but are we ready to step in and see that the United States carries on? Are we equal to the problems which will confront us? Do we know for what we stand? Could we explain the workings of democracy, could we defend it vigorously against any adversary? We'll be good physicists, and chemists, and no doubt be the best business and engineering administrators the future will ever see. So what!!

Is that the way to preserve our heritage? There is more to our job than just working. We'll have to learn, and learn hard. We'll have to take more than a passing interest in government, politics, labor, economics, education. We'll have to tear off the clothes with which we tend to embalm our American life. America is not some well preserved thing to adore—we'll have to dig deep and see what makes America's heart tick. America does have a heart and a soul. Read our history books, sing the *Ballad for Americans*, attend Town Meetings, and you can't miss it.

This much is talk, but we are not all talking. Take, for example, the United States Committee of the International Student Service, which is again holding its summer Leadership Institute, and its work camps this year. We may not all be able to partake per se but what's to prevent our thinkin' an' talkin' on those long summer nights. We mean something, we youths. Are we up to it?

## SENIORS:—COME ACROSS

## Professor's Undergraduate Days Revealed By Member Of Faculty

Professor Paul C. Eaton of the department of English is one Technology professor who looks and acts as though he may at one time have been an undergraduate, as indeed he was. He graduated from the Institute with the Class of 1927 after an active period of undergraduate activity.

Arriving at Tech in the fall of 1923, fresh from Exeter Academy, the youthful Eaton was pledged by Phi Kappa Sigma fraternity, and was soon involved in athletics and politics. It did not require much persuasion to convince him that the crew was in his line, and as Professor Eaton puts it, "I got a job as reporter on The Tech so that I could tell people all about the freshman crew, and especially about a fellow named Eaton." Whatever the motive, he continued to report for about three months, when he found that matters scholastic were catching up with him.

### A Slip of the Sweep

Professor Eaton claims the questionable distinction of having lost the Field Day crew race for the freshman class in 1923.

"It happened this way," he explains. "Just as we were passing under the Harvard Bridge, I looked up to see if a girl friend of mine was watching us, and I caught a crab, nearly swamping the shell and effectively losing the race for our crew." Apparently his classmates were willing to overlook this slip of the sweep, for the captain of the Sophomore Field Day crew the following year was none other than Paul C. Eaton. He stuck with the crew, and in his Junior year was a member of the undefeated 150 lb. (believe it or not) crew stroked by Cedric Valentine. He served as president of his Sophomore class, and of his Junior class, "mainly because the other candidates flunked out," as he explains it.

One of Professor Eaton's most interesting recollections was the Tech Night of 1923. Tech Night was one of the best times on the Tech calendar in those days, for the whole undergraduate body got together and bought out a stage show for the night, resulting in all sorts of revelry. On this particular Tech night back in 1923, which incidentally was the last one, Professor Eaton recalls a four-way tug-of-war between the four undergraduate classes. One enterprising class borrowed a truck, which they proceeded to tie to their end of the rope. The other three groups, sensing foul play, merged forces, and pulled the rear end right out of said vehicle.

### A Tradition Dies

"Then," says Professor Eaton "there was the time when the Class of 1926 decided it would be nice for Technology to acquire a tradition. Accordingly, they procured a large concrete beaver, standing some six feet tall and weighing several hundred pounds, and challenged the

other classes to capture it. With their customary indifference, the students ignored the challenge, so the frustrated owners of the Beaver dropped it from an airplane into the Charles, thus a promising tradition was nipped in the bud."

Professor Eaton has taught at Exeter Academy, as well as Katherine Gibbs and Erskine Schools. In collaboration with Professor Frederick G. Fassett, he is the author of two texts on English, *Practical Writing and Studies in Reading*. At the present time, he is in charge of the E11 and E21 Literature classes at the Institute.

## The Reader Speaks

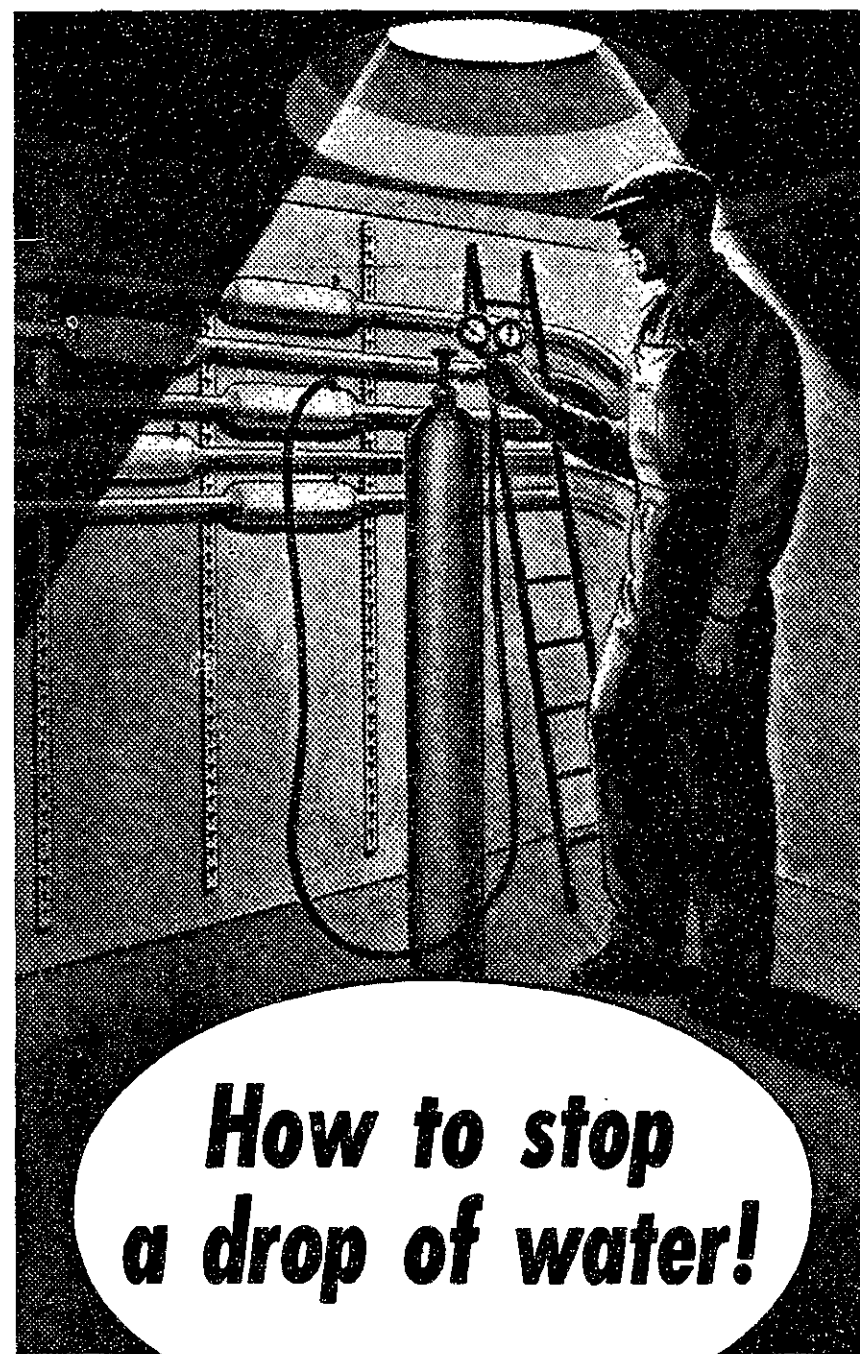

Editor, The Tech  
 Walker Memorial  
 Dear Sir:

The appearance of *Technique* on Tuesday made even more apparent the spirit of good fellowship and open mindedness that has come to be felt very strongly in activities, social gatherings, and athletic contests at the Institute in the past year or so. This has been particularly prominent in all the publications, in the Musical Clubs, Debating Society, and Drama Shop efforts, and in the "big week-end" social affairs, bringing forth the co-operation in the Inter-Fraternity Conference and Dormitories we have longed to see. Some of us Seniors are conceited enough to feel that we have helped to develop this spirit of sportsmanship and this earnest desire for friendship. Our job will not be over, however, when we can shake hands with the Class of 1941 as alumni.

In the few months that follow graduation, there will be many pleasant memories to recall. There will be publications, snapshots, and mementoes to make them more vivid. There won't, unfortunately, remain the possibility of returning easily to the fellowships that have been made during these four years. Some of us will wait many years before we bother to remind ourselves actively of these friendships.

Need we wait that long? Isn't there something we can do and plan now to keep our acquaint-

(Continued on Page 4)

**How to stop  
a drop of water!**

A tiny pin-hole in a telephone cable can admit moisture, causing short circuits and service interruptions. But Bell System men have found a way of beating this trouble to the punch.

They charge the cable with dry nitrogen under pressure. Then should a leak develop, the escaping gas keeps moisture out. Instruments on the cable detect the drop in pressure... sound an alarm at a nearby station... indicate the approximate location of the break. A repair crew is quickly on its way.

To maintain and improve America's all-important telephone service, men of the Bell System are constantly searching for the better way. Pioneering minds find real opportunity in telephone work.

# Beaver Lacrossers Subdue Harvard 8-6; Become Hub Champions

## Freshman Season Opens With Tufts This Afternoon

The Tech lacrosse team became Boston champions last Wednesday afternoon by virtue of their 8 to 6 victory over Harvard, its first win over Harvard in twelve years. The Boston Lacrosse Club and Tufts, the only other 'Hub City' teams were defeated by the Beavers in their first two games of the season.

Al Heckel was the high scorer for the day with four goals to his credit. Gene Schnell followed with two goals and Ralph Leader and Row Hill each scored one. However, Bill Kennelly deserves credit for combining nicely with Heckel on two of the latter's goals, while Gene Schnell passed to Al for a goal in the closing minutes of the game to end a three goal rally by Harvard in the last period and clinch the game with an 8 to 6 lead.

The lineup was as follows:

Wally Jevon	Goal
Bob Given	Pt.
Cal Dunwoody	C. Pt.
Doug Fenton	1st. D.
Capt. Bob Evans	2nd. D.
Pete Sibley	C.
Gene Schnell	2nd A.
Al Heckel	1st A.
Ralph Leader	O. H.
Bill Kennelly	I. H.

Row Hill, Fred Gander and Earle Foote made up an alternate mid-field.

This afternoon the freshman team inaugurates its season in a game against the Tufts freshmen on the Jumbo's home field. Tomorrow afternoon at 3:30 the varsity will play Springfield on Briggs Field and next Wednesday the Beavers will travel to New Haven to pit their skill against the Yale Bulldogs.

## Smith Is Made Head Swim Coach Tiedemann To Captain Next Year's Varsity

The announcement of the appointment of Gordon H. Smith as head swimming coach came as the climax to the Swimming Team Banquet which was held last Tuesday evening at the Colonial Kitchen, Boston. Ralph T. Joep, chairman of the advisory council on athletics, made the announcement, after wishing John J. Jarosh, who resigned the position last week, good luck in his future business.

Gordon Smith has been assistant coach at the Institute for six years, and this year coached a freshman team which won field day, and lost only to Andover and Exeter in the regular season.

Overshadowed only by the change of coach was the important announcement of Henry M. Tiedemann, '43, as captain of the varsity swimming team for next year. At the same time the awards to freshman and varsity swimmers were made and the elections of new members to the Swim Club was announced.

Those men receiving straight T's were William G. Denhard, '42, cap-

## Handicap Track Meet To Be Run Tomorrow

Because of inclement weather the handicap track meet scheduled for last Saturday will be run tomorrow at 2:00 P.M. on Briggs Field. The events to be contested are: shot put, discus, hammer, pole vault, high jump, 75-yard high hurdles, 120-yard low hurdles, 75-yard dash, 150-yard dash, 660-yard run, and the three-quarter mile.

Following his customary procedure, Coach Oscar Hedlund will maintain track workouts throughout next week at 3:00 P.M. These workouts will be particularly important with the Colby meet coming on Saturday.

## Gannon Is Winner Of Rifle Medal

### Weisenthal Chosen Next Season's Captain

Dick Gannon, captain of the 1941-42 rifle team, was announced as the winner of the Varsity Club Medal at the annual banquet of the team held in Hotel Victoria, Wednesday evening. Pete Weisenthal was elected captain of next year's team; Bob Wood was chosen manager.

Results of the Intercollegiate league contests which have not been announced heretofore were also given out. M.I.T. came in third in the N. E. Intercollegiates, following Yale and the Coast Guard team. Each member of the Technology team was presented with a third place medal.

The postal matches were taken by the Coast Guard after they beat Tech by one point in the Intercollegiates at Yale. This broke the tie between the two teams.

Herman Lorence, one of the star performers this year, was revealed as the third place winner of the Eastern Intercollegiates and ninth place winner of the National Intercollegiates, according to a telegram which arrived immediately preceding the banquet.

The speakers of the dinner were Major Edward C. Harwood, of the Military Science department, and several of his associates, Captain Stevens, Major Spurr, and Colonel Putney. Ralph T. Joep, of the Advisory Council on Athletics also spoke.

# Institute Sailors Take B.U. 36-27 On The Charles

## Dinghy Crews To Race At Brown Saturday, At Harvard Sunday

On the Charles River yesterday afternoon, three Technology skippers and their crews swamped a Boston University sextet with the final score: M.I.T. 36, B.U. 27. At the same time, Harvard was edged away from a win by Northeastern University 32 to 30.

These races, held on weekdays, are part of the Charles River League races, held in the Charles River Basin. The teams use the dinghies of the Community Sailing Project. Today's meet was one of the first dual regatta of the season.

Technology racers included as skippers the following: Harold Boericke, '44, and Conrad Lau, '42. Representatives from Tech will go to Brown Saturday to compete in the Seventh Annual Brown University Spring Invitation Regatta for the Lucien Sharpe Trophy. Again on Sunday, the sailors will race, then against Harvard and other leading colleges at Harvard. The teams which are entered to try for the George Owen Trophy include: Brown, Coast Guard, Cornell, Dartmouth, Harvard, M.I.T., Navy, Pennsylvania, Princeton, Williams, and Yale.

# Beaver Feats

BY GARD SLOAN

## Track, Lacrosse Traffic Aided By Opening Gate Behind Pool

Every day the lacrosse and track teams dress in the Barbour Field House and go down Vassar Street to Briggs Field. The procedure has been to leave Barbour Field House by the door on the Briggs Field side and to cross part of the area under construction.

The disadvantage of passing through the construction area is two-fold: first, it tends to interrupt and add confusion to the work going on; second, it is dangerous because because most of the track men wear sneakers and are liable to injuries from rusty nails.

All this trouble could easily be avoided if the three-foot gate behind the pool, directly at the end of the board track stretch, were opened.

# Sheetz Wins Emerson Cup Gunther Chosen Captain

Jack Sheetz was announced the winner of Emerson Cup at the annual squash banquet held last night in the Silver Room. Guest of honor at the dinner was Mr. Emerson, donor of the cup, which goes to the M.I.T. squash champion. Lou Stouse took second place in the M.I.T. contest.

John Gunther won the J. V. cup and was elected next year's captain. Ian Bennett received the freshman cup and Dick Hess was chosen next season's manager.

### New Telephone System

(Continued from Page 1)

ment of Electrical Engineering, and Delbert L. Rhind, Bursar.

The guests included a large group of telephone officials from every department concerned with construction of the new system. They included Frank A. Benham, chief engineer; Francis A. Barrett, publicity director of the Telephone Company and president-elect of the Alumni Association; Harris B. McIntyre, toll rate engineer; and John J. Walsh, service representative.

Other guests were the Institute's telephone operators headed by Miss Albina F. Ahearn, chief operator, whose association with the Institute's telephone system began when she came to the Institute as the first operator upon completion of the Institute buildings in Cambridge in 1916.

### Rowe Cup Regatta

(Continued from Page 1)

ing races will continue at 15 minute intervals. The schedule of races and the various entries are as follows:

4:45—freshmen heavy race; Harvard, Boston University, M.I.T. (possibly Cornell)

5:00—150 lb. Varsity; Harvard, M.I.T.

5:15 — Junior Varsity; Cornell, Syracuse, Harvard, M.I.T.

5:30—Varsity; Cornell, Harvard, Syracuse, Boston University, M.I.T.

Howard Robbins of Syracuse, who for years has refereed all the races on the Charles, is in charge of this year's Rowe Regatta.

There have been several changes in all Tech line-ups, and the following are likely to be the ones to race reading from bow to stroke: varsity — Malloch, Lehman, Tyberghein, McGuire, Taft, Devoe, Flowers, Heller; J.V.—Turner, Leader, Walz, Bakker, Bowen, Soderberg, Spitz, and Thiede; 150 lb. varsity—Bryant, McClave, Floden, Nicolait, Pietsch, Shaknov, Caldwell, and Hettich; freshman heavy—Stromsted, Hull, Robertson, Russell, Hield, Kalb, Burke, and Smith.

### Sigma Xi To Elect Officers Tonight

Elections of officers for the Technology chapter of Sigma Xi, honorary scientific society, are to be held this evening at 5:00 P.M. in Room 6-120, it was announced last night by Professor Avery A. Ashdown, secretary of the organization.

At the membership election meeting held last Sunday about two hundred persons were named as new members of Sigma Xi, and these people are to be initiated at the meeting this evening. Of these forty are Seniors and the remaining one hundred and sixty are graduate students and Faculty members.

### Technique Head Announces Plans For Early Issue

December 15, 1942 has been set as the date for the publication of the 1943 Technique, according to Robert C. Meissner, '43, general manager of the yearbook.

Much of the work is to be done this spring and summer, and every effort will be made to keep the book up to standards of previous years even though prices are rising and time for compiling the volume is very short, said Meissner.

Work having been started on the yearbook, it is hoped that pictures of all the spring sports and social affairs can be taken now. Rowland Grandgent '43, co-editor-in-chief, already has started the photographic staff taking many pictures for the book. Senior pictures, Senior biographies, class officers section, activities, and faculty section are the parts of the volume which it is hoped will be completed by June 30. Work on them is to start as soon as possible.

Howard P. McJunkin, co-editor-in-chief, reports that all literary work will be completed as the related events take place.

### Walker Assemblies Ball

(Continued from Page 1)

year. The affair is exclusively for the members of the staff and their guests, and a number of the Institute Staff members who have been invited.

The two main features of the affair are to be the Grand Promenade which will take place at 11:30 P.M. in Morss Hall and the buffet supper which will be served at midnight in the Walker Gym. Dates of the Assemblies Ball Committeemen will serve the refreshments consisting of petit fours, sandwiches, ices, tea and coffee. The Gym is to be decorated in cabaret style, which will also follow the color scheme of royal purple.

Those in attendance will also have the privilege of listening to the Walker Staff octet, a vocal group which has been practicing for this recital since the beginning of the school year. Under the direction of John R. Foley, '43, leader of the octet and arranger of all their renditions, the group is to sing three numbers. The other members of the octet are: Arthur C. Loven, '45, Charles H. Lawrence, '42, Laurence J. Winik, '43, Robert K. McCandliss, '44, William O. O'Neill, '43, James W. Libby, '43, and Kenneth L. Warden, Jr., '43.

### NEW MANAGER

Robert C. Meissner, '43, recently elected general manager of the next volume of Technique.

### Swim Team Banquet

(Continued from Page 3)

tain, John E. Loveland, '42, Edward L. Pepper, '42, and Harold J. Gershnow, '43.

Seven other men received the stt. They were Ralph W. Garrett, Jr., '42; John R. Foley, '43; Jack L. Hunn, '44; Edward W. Cochran, '44; Henry M. Tiedemann, '43; Robert S. Reebie, '43; and Albert B. Root III, '42.

Numerals were awarded to thirteen freshman swimmers: James A. Leonard, captain; Russell A. Foust, Jr.; Clarke S. Bressler, Jr.; Deming W. Smith; L. Robert Knodel; Stephen B. King; Gordon R. Findlay; H. Bruce Fabens; Joseph M. Aguila, Jr.; Corwin H. Brumley; Robert M. Ilfield; Paul K. Cruckshank; and John A. Walsh.

### Senior Week Program

(Continued from Page 1)

the Commencement Address on the following Monday.

It was also announced by Quinn that individual tickets to the various features of the Senior Week program may still be purchased. Those wishing to obtain them may contact Thomas T. Crowley, '42, Gordon H. Hill, '42, and W. Hoover Shaw, '42. There are no more tickets available for the Country Club dance, though for Senior Ball there are still some remaining. Letters have been sent to all ticket holders giving complete details as to the program for Senior Week.

Authorized and approved literature on Christian Science may be read or obtained.

### The Reader Speaks

(Continued from Page 2)

ance with these comrades? The Technology Review will soon find many of our names listed under "1942"; some of us from Australia, Africa, India, — who can predict? Many of these names will be lost to us because no effort was made to continue acquaintance. Can't we continue and broaden this spirit of fellowship at Technology through the years to come?

This is all a nice idea, but, — yes, there are a few catches. First, we have a class column to fill every month in the Technology Review, which to some of us will be our only source of information about our old cronies. Second, some day we shall realize how much we owe "the old Institute", and Karl Wenk and many others hope that day won't be too far off. Third, we must find a means to maintain this good fellowship. A group of last year's seniors started a chain letter, each adding his letter to the pile received. The results were most gratifying. Can't we bunch together as groups of friends and do the same thing? Perhaps some of us had planned to. If, then, some one member of each group could take it upon himself to relay choice information to the secretary and his assistants (of the Class of 1942), Technology Review would fairly hum with the Class of '42. To do this we must act, and act fast, which means in the next few days! After the biggest Senior Week the Institute has ever seen, hoping and trying for the best,

yours with the hungry pen,  
Fred Baumann, Jr.,  
Permanent Secretary,  
Class of 1942
